Short Answer

Answer the following questions with complete sentences in your own words. You are encouraged to conduct your own research online or through other methods before answering the questions. If you research online, please consult multiple sources before you write down your answers. You are expected to be able to explain your answers in detail

1. Explain cascading failure in microservice and how to prevent it.
2. Explain CircuitBreaker and its states.
3. Explain Spring Cloud Configuration.
4. Describe the CAP Principal.
